- Strong communication

WORK EXPERIENCE

Tokio Marine Life Insurance Thailand Public Company Limited   Jan 2025 - Present
Full Stack Developer
- Proficiency in HTML, CSS, JavaScript, TypeScript, and frameworks such as React, Vue.js, and Nuxt.
- Proficient in developing server-side APIs and implementing business logic using C# and .NET.
- Skilled in writing automated tests using NUnit (unit testing) and Playwright (end-to-end testing).
- Experienced in managing IIS on Windows servers for app hosting and deployment.
- Familiar with CI/CD pipelines using Azure DevOps, including automated deployment workflows.
- Strong knowledge of SQL with hands-on experience in Microsoft SQL Server, including the use of stored procedures for complex data operations.

Tong Hua Asset Management Company Limited   Aug 2024 - Jan 2025
Full Stack Developer
- Proficiency in HTML, CSS, JavaScript, TypeScript, and frameworks like React and Remix.
- Built secure back-end services with Supabase and PostgreSQL for customer and debt management.
- Utilized PM2 for Node.js process management and application deployment in production.
- Used MinIO as object storage for handling file uploads in the application.
- Skills in data analysis for monitoring debt statuses and generating reports.

Internet Thailand Public Company Limited   Jul 2022 - Jul 2024
Software Engineer
- Proficiency in HTML, CSS, JavaScript, TypeScript, and frameworks like React, Vue.js, Next, and Nuxt.
- Experience with server-side languages (e.g., Node.js) and frameworks (e.g., Express).
- Implemented back-end functionalities using MySQL and MariaDB for efficient data handling.
- Developed an online national-level exam registration platform with over 100,000+ users, supporting multiple roles (e.g., police, teachers).
- Built functionalities for user registration, status tracking, payment processing, PDF generation, exam location display, and result management.
- Experience with Docker for image creation and deployment on Kubernetes via Rancher, including application scaling.

INTERNSHIP

Kaennakhon Witthayalai School   May 2021 - Mar 2022
- Designed and taught lessons in Computational Science, Basic Python, and Design and Technology.
- Coordinated activities and provided support for school systems and website operations as assigned.

National Broadcasting Services of Thailand Khon Kaen   Jan 2021 - Apr 2021
- Developed a News and TV Program Management System for the National Broadcasting Station of Thailand, improving data management efficiency.
